## Rebel Medium Transport

These cargo carriages played a pivotal role during the evacuation of Hoth. With a minimal escort of just two X-wing fighters and the Alliance's giant ion cannon providing cover fire, Rebel transports evacuated key command personnel and supplies from the battle zone.

You can build this Rebel Medium Transport using pieces from the new LEGO® STAR WARS™ Mini-sets, or your own LEGO collection.

## FRANKIE FLYTRAP

Ask Frankie about his favourite food and he'll grin from ear to ear, "It's flies!" he cries. "Eat, juicy horse flies, big, crunchy blue bottles, mouth-watering midges - Yum!" He's even got a secret recipe for Shoo Fly Pie! You can build Frankie by combining your green and yellow LEGO X-Pods.

## Play LEGO X-Pod Play-Off!

Think you've got what it takes to lead a team of LEGO X-Pod creations through a hazardous landscape to safety? Then you just might be ready for LEGO X-Pod Play-Off - the new, action-packed LEGO game demanding keen strategy, wicked imagination, and solid building skills!

Collect PLAN CARDS and build X-Pod UNITS - ferocious creatures, supersonic jets, tough and ready robots - you can even build your own, unique superpowerful UNIT with a "What Will You Make?" Wild Card! The player who builds the coolest, craziest UNITS and guides three of them to the other side of the board first is the WINNER!

Go to [www.LEGOclub.com](http://www.LEGOclub.com) and enter the Club code PLAYOFF to download PLAN CARDS, INSTRUCTIONS - you can even design your own GAME BOARD! You'll also find an awesome X-Pod Play-Off TRAINER there to help you master the moves and learn all about the amazing UNITS you can build with your LEGO X-Pod. What will you make?!

# Cool New Sets For Building Wherever, Whenever .... Whatever!

## TWIN TURBO BUZZ BUGGY

Are you looking to set a new land speed record? This little LEGO Buzz Buggy may just do the trick! It combines monster-sized rear wheels with two high powered turbojets! You can build it with parts from the green, yellow and blue LEGO X-Pods.

## WILBUR THE WORDENDOT

Looking for a miniature marvel to help keep your desk organized? With his dual storage bins for paper clips, push pins and other teeny, tiny office supplies, Wilbur is the answer to your desktop dilemma! You can build him by combining all four LEGO X-Pods.

## Ever wonder how to make eyes, or heads?

Well, Chief Model Maker at LEGOLAND Windsor, Guy Bagley, gives us the inside story on how to put great detail to your building that will make your models the envy of all your friends! And what's more, you can do all these with your own brick collection!!

### Road Works?

Look at this great traffic cone – it is so easy, and you can use any colour you like! All you need is 1 2x2 round plate, 1 mini-figure head, 1 small nose cone and 1 1x1 round plate (stud)! With only 4 pieces, you could make enough to go all the way around your LEGO town!

### Lights, Camera, Action!

Do you build your own film scenes? Then what a great model for your technical team! And what a great way to use your LEGO dustbin! We also use these mini-models to create lights on boats and ships in Miniland at LEGOLAND Windsor.

### Eye Spy!

Ever wondered how to make eyes? This dragon sees with lamp backs (which we call Washing Machines!) and 1x1 round plates (or studs). Not only can you change the colour of the eyes, but you can also make them point forwards, sideways or backwards - depending on the creature you're building! You can use 'L' shaped plates for the wings and tail, and 1x2 2-pronged hinges make great dragon feet!

### Lost your head?

We'll don't worry, you can always replace it with one of these spare ones! For a ponytail, use 1 1x2 2-pronged yellow hinge and 1 1x2 3-pronged yellow hinge. For spiky hair, use 4 1x1 brown up-right lamp holders. 'Handle-bars' make great curly hair, and by placing a 2x2 plate on top of a 2x2 plate, you will give the impression that the person is wearing a baseball cap. You can also give someone glasses by adding clear studs to 'washing machines'!

### Letters & Numbers

You can create your name and age, etc. by using standard LEGO bricks and plates. You could even use those to add lettering to the sides of buildings or towns!

## DEFENDING YOUR SHIELD

A True Test of Knightly Skills

With the aid of the champion, your knight will defend your castle from the enemy army. The champion will be the one to lead the army of knights and the knight will be the one to lead the army of knights.

In the game, the champion will be the one to lead the army of knights and the knight will be the one to lead the army of knights. The champion will be the one to lead the army of knights and the knight will be the one to lead the army of knights.
